

3d Maze

November 4, 2018

1 Installation

The following package is to be installed (or compiled) in your Linux distribution. On Devuan Linux, the installation is for instance:

```
sudo apt-get install ncurses-dev
```

2 Compilation

To compile the 3D maze with ncurses library, the **make** application will help. The application **make** do in fact the following:

```
gcc -lncurses -lm 3dmaze4console.c -o 3dmaze4console
```

3 Conclusion

Have fun with development.
